

Trend Irregular In Curb Trading; Slight Recovery

Some of the Oil Shares Firmer, but Cities Service and Others Rule Easier; Industrials Lack Support

Slight recoveries in some of the prominent oil shares gave an irregular trend to prices at the close of trading on the curb market yesterday. Cities Service and some of the lower-priced shares ruled easier. Industrials lacked support.

Standard of Indiana recovered to 85, and Maracaibo moved up to 20 and Anglo-American sold up to 17. Cities Service common fell below 170, while Simms Petroleum and Carib Syndicate sagged fractionally.

Magma Copper and United Retail Candy lost fractions.
